

Home Learning Primary 3

Term 4

Below is a selection of activities that can be worked on individually, by your child, or together as a family. They can share their work with their class if they wish.

Reading

Please encourage your child to read for pleasure and/or purpose. It doesn't always have to be a book - it can be a magazine, instructions for a game or how to build something, a shopping list or ingredients for a recipe. The options are endless!

Expressive Arts

Using materials you have at home can you create your own self portrait? Can you create your own paint?

You could try some of these options:

Painting with coffee

Fruit and Vegetable Paint

Paint made with Spices

Or Food Colouring Watercolours

Writing

Choose a character from your favorite book or TV programme and write a description about them using good describing words. Try to join your sentences with connectives and remember your capital letters and full stops.

STEM

What recycling materials do you have in your home? Can you collect enough to create a model? You could be inspired by our topics this term and choose to create a model of a plant or of part or even all of Saughton park. Whatever you choose, we can't wait to see them!

Maths

Mental Agility

Use your Sumdog login and practice the skills we have been working on in class - focus on something you are finding tricky or would really like to get better at!

https://www.sumdog.com/user/sign_in

Time

Is that the time? This term we will be looking at how to tell the time using both analogue and digital clocks. Can you make a timetable of a normal day for you?

Remember to use language such as half past, quarter past and quarter to.

Reading

You should now be receiving a new book home each week to practice your reading! Please take the time to read to your adults at home and practice the reading skills we are working on in class.

Science

Our P3 farm is looking great! We will be looking at plant and insect life cycles this term so let's see what you can remember about how plants grow. Check out the link below for some interesting videos and a quiz!
